IN THE SPECIFICATION

1.   Please replace the paragraph beginning on page 7, line 15 with the following replacement paragraph:

Processor 308 of source AR 306 (i.e., the old PDSN) communicates with remote unit 330 (or MS 330) via a PPP communication link. Associated with this PPP link is PPP context information, which includes various negotiated PPP parameters. Processor 308 of source AR 306 determines that a PPP link handoff from source AR ~~308~~ 306 to target AR 305 should occur based on a variety of triggers and then conveys the PPP context information to target AR 305.
